Then this workshop is for you. Become a sophisticated, successful grant seeker and generate more income for your organisation.

The *Advanced Grant Application Writing Workshop* will include:

- Planning projects and scoping the grant – what are you asking for?
- Breaking the project into achievable sub-projects
- Gathering evidence to support “the need”
- Developing a funding “cocktail” – funding partnerships
- Examples of good and bad applications
- Following up on successful and unsuccessful applications

The workshop will be presented by an experienced trainer from *Our Community* and will include tips from some of the ACT’s most successful grant writers as well as those who regularly assess grants in the ACT.
